

THE
ADVENTURES OF...

THE ARCHANGELS

MANAGERS OF ANGELS THE ARCHANGELS

The term ***Archangel*** is derived from the Greek phrase “**the greatest messenger of God.**”

Arch means “**the first**” or “**the greatest,**” and ***Angel*** means “**messenger of God.**”

Angels are Universal, they are the love and light embodiment of an energetic expression and have fully integrated the male and the female aspects into One.

The angels are egoless beings... non-human, non-physical and non-denominational. They are here to help All on Earth come to a place of Peace within.

They are here to Guide you... You must always *Ask* and *Allow*.

How is this done? Call on the Angel by name, invite them into your quiet time or meditation.

Ask them questions and wait... Notice the answers.

Ask for Guidance by obvious signs...

A call from a friend, an email or something specifically geared toward you.

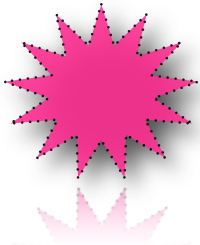

If you feel these nudges, follow them... This is the *Allow* part of *Ask* and *Allow*.

Angels each have their own Soul Signature.

Make a request when you call on them, to show you, by feeling their individual vibration.

Certain Angels are specialists in certain areas of life. Invoke the specific Angel to help in their area of expertise.

Call on the Angels throughout the day, if you desire.

MANAGERS OF ANGELS THE ARCHANGELS

When you feel comfortable talking to the Angels, you will find they have a great sense of humor, and they enjoy helping.

There is no limit to the help they can bring and they never tire of helping.

Angels are connected in to the Universal Field of the Divine Mind and bring the information directly to you and into your mind.

This is how the Guidance is received and experienced as your own.

Angels help keep people on their Mission and reveal sacred mysteries.

Angels can help in healing...

Be consistent and ask for an energy vortex to spin around your aura and physical body.

Set the intention that this vortex will clear and cleanse the aura and your body of anything which is no longer needed.

This clearing will occur on the electromagnetic level of your Auric Bodies and in time, will manifest in the physical body as improved health and well-being.

Angels are here to execute Divine will and bring about Peace...

So open up to this amazing gift that you are given.

Be brave and ask for assistance when you need it... You can never overwork an Angel, especially the Archangels.

In the following "*The Adventures of Archangels Series*" I invite you to discover four Archangels and their gifts to you.
