## *Golden Heart: Passion Pulse Point*

Use the Golden Heart to gauge your Passion Pulse... Fueling your heart with passion and high vibes allows you to be supported in manifesting throughout your day. Shift your internal reality for the greatest external expression of your feeling tone. Your heart turns Golden as you charge the grid and activates the energies of creation.

When we are manifesting a Divine Desire or Inspired Intention on the grid, we benefit by checking on our passion pulse to see if anything is in the way of a consistent and high pulse rate. Connect to the grid and feel the energy coming into the back of your heart.

**Ask:** What is the level of the flow of energy coming into the back of my heart? Imagine the flow... Is it sporadic? steady? gentle? heavy? light?

**Ask:** What is my relationship to the Grid?

**Ask:** What have I made up about the Grid?

Shift any mental/emotional attitudes that may be holding you back and slowing down the flow.

Check to see if the Grid is coming into the body at an angle? straight? Make sure the horizontal and vertical lines of the Grid are straight.

Discover how your Passion Pulse thrives, becomes Radiant and Golden.

## Master Manifestation Key

### ***Setting A Golden Grid***

Create and Charge a Golden Grid in a physical location... like your home, business space or vehicle.

Ground each space, set a Grid and charge the Grid for the qualities that you would like reflected in that space to support you.

In your home for example... Your Set Grid in your Kitchen would be different than your bedroom Grid.

**From your Heart Convergence Point, with your Golden Heart Passion Pulse, place a Grid inside of the Space...**

**Choose 3 qualities** that you would like to charge the Grid with... For example: Romance, Inspiration and Connectedness

**Ask: What is the feeling related to each quality?**

Maybe: Passion, Happiness and Love

**Work with each quality...** do the Creative Coherence Formula  
**Send the feeling tone vibration of each quality into the Grid...**

**Fill up the Grid...** When you see, feel or know the Grid is activated all the way with the quality, then you have programmed the Grid with that quality.

Enjoy your Space!

## *Programming Your Creation*

On the Grid... Imagine an orb representing your creation

**Locate the orb...** Where is your orb in location to your body?

**Notice the orb...** What is the condition of the orb?

**Make a heart connection...** Imagine your possibility/probability line connected into the orb. Imagine this orb is grounded, just like your body would be grounded into the Earth....

**Place a Grid inside of the Orb...**

**Choose 3 qualities** that you would like to charge the orb with...

For example: Love, Communication and Prosperity

**Ask: What is the feeling related to each quality?**

Maybe: Joy, Satisfaction and Peace

**Work with the 1st quality...** do the Creative Coherence Formula

**Send the feeling tone vibration of each quality into the orb...**

**Fill up the orb...** Notice what happens with the condition & size. When you see the orb filled all the way with the quality then you have programmed the grid with that quality.

**2nd quality...** Do the Creative Coherence Formula... feel, know, taste, touch, smell this quality, remember a time when... send the feeling tone vibration into the orb.

**Fill up the orb...** Notice what happens with the condition & size. When you see the orb filled all the way with the quality then you have programmed the grid with that quality.

**3rd quality...** do the Creative Coherence Formula

**Fill up the orb...** Notice what happens with the condition & size. When you see the orb filled all the way with the quality then you have programmed the grid with that quality.

Now you have programmed your Creation/Orb to be filled with the high value qualities and feeling tones. Continue to Activate the Golden Grid and infuse your Creation for Manifestation.
